Subject: Telephone call documentation - Gold Star Stone (Bruce Mitchell) - M/003/050

I received a call from Bruce Mitchell this morning asking if we could grant him some additional time to put together his LMO permit application. Current deadline is for June 29th(?). He has recently hired David Riesik to prepare his plan who has requested until end of July to assemble same.

Mr. Mitchell will be sending a letter to us within next couple days with this time extension request. I told him I thought it would be in both our best interest to get a reasonable plan put together and that we'd try and work with him on the timeframe to submit his application.

A COPY OF THIS EMAIL MESSAGE WILL BE COPIED TO THE MINE FILE (M/003/050).
